

# BIOBANK REFUSAL

## Withdrawal of Biobank consent

By signing this form I confirm that I wish to withdraw the Biobank consent I have given to the FHRB Biobank. My samples and personal data concerning my health may no longer be collected or transferred to the FHRB Biobank.

## Exercising the right to object / objecting to the use of samples and data

By signing this form I confirm that I wish to object to the processing of my data by the FHRB Biobank as permitted by the General Data Protection Regulation (GDPR, article 21(6)). After I have exercised my right to object, my samples and data will no longer be processed or released for use in new research. All my samples will be destroyed and in principle, all my data will be deleted from the FHRB Biobank as soon as possible after the Biobank has received this notification. The FHRB Biobank will notify me once the deletion is complete. Exercising the right to object concerns all samples and data in the FHRB Biobank and cannot be applied in part. Please note that the Biobank interprets the Biobank Refusal to include both withdrawing consent and exercising the right to object.
